

Grosseto 2005

On the 2nd and 9th of August I had the opportunity to visit Grosseto Airbase. During my visit it was possible for me to take pictures of the new EFA2000 Eurofighter. I also made a DVD of the activity on the flight line and taxiway. Some of the pictures I took you can see on this site. It is also possible to see (or download) a short impression ([mpeg file](#)) of the high quality DVD.

During my visit I have seen the following EFA2000:

Single seat:

4-20 MM7270 2nd and 9th of August

4-5 MM7271 2nd and 9th of August

4-6 MM7235 9th of August

nn MM7272 9th of August, this one was delivered to the 4th Stormo on the 5th of August

Dual seat:

4-3 MM55094 9th of August

4-4 MM55096 2nd of August

4-23 MM55095 2nd and 9th of August

A special thanks to Stefano.

I also want to thank Claudio L., Raffaele S. (the biker).

In Grosseto (industrial area) you can find an F-104 ASA "Starfighter" which is displayed in front of a building of a company called Pellegrini. You can find this company (and F-104) on the roads Via Siria and Via Nepal.

On one side you will find the number 4-1 and on the other side 4-23.

It is the F-104 ASA with construction number MM 6740, which flew in the 5th Stormo at Cervia (PA).

It's last flight was on 20 march 2003.

In this report you will find some pictures of this Starfighter.
